### **DETAILED ACTION**

1. This action is responsive to communications: Amendment, filed 27 November 2006, and Preliminary Amendment, filed 13 February 2004, to the Original Application, filed 13 February 2004.
2. Claims 13-128 are currently pending in this application. Applicant canceled claims 1-12. Claims 13, 27, 38, 52, 63, 77, 88, 93, 97, 102, 106, and 111 are independent claims.

### ***Election/Restrictions***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 13-26, 38-51, 63-76, 88-120, and 123-128, drawn to a device, machine readable medium, and method for accessing remote documents, classified in class 715, subclass 740.
  - II. Claims 27-37, 52-62, 77-87, and 121-122, drawn to a server, machine readable medium, and method for serving documents, classified in class 715, subclass 526.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are

shown to be separately usable. In the instant case, invention (II) has separate utility such as serving and rendering documents. See MPEP § 806.05(d).

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and the search required for Group (I) is not required for Group (II), restriction for examination purposes as indicated is proper.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laurie Ries whose telephone number is (571) 272-4095. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Heather Herndon, can be reached at (571) 272-4136.
